

Example of 8.5" x 11" Brochure

(Sample is not to scale - 50%)

 **BLEED AREA**

 TRIM LINE
This is where the brochure will be cut to the final size (8.5" x 11"). Anything outside of this line will not be on the finished product.

 "SAFE ZONE"
It is recommended to keep text or important images at least 0.25" (1/4") in from the trim line to ensure that it does not get nicked off during cutting.
